WORLD WIDE WEB SITES

See www.nocirc.org/resources/www.html.

"These, then, are the human genitals. Considering their great delicacy, complexity and sensitivity, one might imagine that an intelligent species like man would leave them alone. Sadly this has never been the case. For thousands of years, in many different cultures, the genitals have fallen victim to an amazing variety of mutilations and restrictions. For organs that are capable of giving us an immense amount of pleasure, they have been given an inordinate amount of pain."

Desmond Morris, DPhil (Oxon)
